

# UHF-RW-MP-232-4A

## 4 port UHF RFID reader/writer

### Specification

(4 Port multi-protocol UHF reader/writer with 4 external antenna support)

- support multi-protocol : ISO18000-6C EPC G2 & ISO18000-6B
- Operation mode : read/write UHF Tag ID & memory
- support multi-tag reading
- reading range : ~ 3-5m with 7dbi external antenna
- reading range : ~ 5-8m with 12dbi external antenna
- **Support multi-Antennas (1-4) : 7dbi or 12dbi (optional)**
- Standard Frequency : 902-928Mhz
- European Frequency : 865.6-867.6Mhz (customer made)
- support interface : RS232 and TCP/IP
- Transmission Power : < 30dbm (software programmable)
- power supply : +DC9V,3A
- Free software pack (demo program , source code & protocol)
- Software compatible with UHF-RW-MP-232 version
- Dimension : (310x210x4)mm - 4 antenna version
- weight : 2Kg
